

WHO WE SERVE

Hanna Academy is for students with IEPs whose qualifying condition(s) are Emotionally Disturbed (ED), Specific Learning Disability (SLD), Other Health Impairment (OHI), and some students on the Autism (AUT) spectrum.

The school accepts all genders.

REFERRALS

Hanna Academy accepts student referrals from school districts, SELPAs, and other professionals involved with students and their families. Hanna Academy is now able to accept district and county referrals for students with an IEP who require a non-public school (NPS) setting to gain educational benefits.

Believing in the Future

ABOUT US

Hanna Academy admits qualified students, grades 9-12, who have an established Individualized Education Plan (IEP). The Academy is accepting referrals from school districts, SELPAs (Special Education Local Plan Areas), and other professionals. The school welcomes students of all genders and embraces diversity, inclusivity, and honors the individual needs, preferences, and beliefs of all students and families.

Believing in the Future.

THE HANNA ACADEMY MODEL

Hanna Academy utilizes a collaborative teaching model, joining both general education subject-area experts and education specialists within one classroom to provide the least restrictive learning experience within small class sizes. All students demonstrate their achievement through literacy, critical thinking, and the application of concrete skills.

THE FACTS

- The school accepts all genders.
- Two teachers in every academic classroom.
- Small class sizes is the norm.
- Extracurricular activities on par with typical small schools.
- Additional programming, such as mental health services, are provided according to the student's IEP.
- While located on the 160-acre Hanna Center school campus, the Hanna Academy is a separate, secular, non-profit 501c3 and is not affiliated with any religious organization.

SCHOOL MISSION

Hanna Academy educates, prepares, and empowers students with learning and emotional challenges to succeed in school and life by developing their unique and individual talents and gifts. The student-driven program develops academic, social, and career skills within a safe, inclusive, and nurturing environment.

OUR VISION

A world where every student is prepared and able to succeed in school and in life – regardless of academic and emotional challenges – grounded in the belief that with support and guidance, every student can identify and reach their goals.

THE HANNA CAMPUS

The Hanna Academy campus rests on Hanna Center's 160 beautiful acres in Sonoma, California. Here, students have access to sprawling grounds that help them feel at home. Plus, they have opportunities to explore the outdoors through hiking trails, gardens and so much more.

CAREER AND TECHNICAL EDUCATION (CTE)

Our CTE-focused elective program exposes students to several career pathways before allowing them the choice to specialize with deeper study in the field of their interest. The four career tracks currently include tiered courses in construction trades, health, technology for industry, and culinary/hospitality.

RESIDENTIAL PROGRAM

In February of 2024, Hanna Academy launched a new residential program for students who qualify to live on campus.

The residential program offers youth who live too far away and are in need of daily assistance, the opportunity to live on campus while receiving specialized education and support. With a staff-to-student ratio of one to six, the program goes beyond school hours to provide personalized care, including recreation and case management.

RESIDENTIAL ADMISSION

To be admitted, students must have an IEP, be referred, and be accepted to Hanna Academy.

RESIDENTIAL GOALS

The program aims to facilitate change and support students as they navigate challenging transitions and develop into responsible, compassionate adults.

RESIDENTIAL DETAILS

Our residential program encompasses dorm life, health and nutrition, and counseling services.

Students experience a group living environment that fosters friendships and includes structured daily activities.

Counseling and casework services are provided to help students manage stress, resolve conflicts, heal from trauma, and improve their relationships.

We also offer sports and recreation programs to promote teamwork, physical fitness, and a healthy lifestyle.

By choosing the residential program, students will discover new opportunities for learning, personal growth, and success.
